

WORLD INVESTOR WEEK 2023

The International Organization of Securities Commissions (IOSCO) celebrated the World Investor Week (WIW) between October 2–8.

The WIW is a global initiative promoted by IOSCO to raise awareness about the importance of financial literacy and investor protection and shed light on the various initiatives carried out by securities regulators in these fields.

This year, the campaign's themes are **investor resilience, crypto assets and sustainable finance**, which the IOSCO Board has identified as particularly relevant given current and expected global market conditions. Other themes cover **Frauds and Scams Prevention, Basics of Investing, Technology and Digital Finance**.

In Mozambique, the event is set to take place within the week of October 16–20, and the activities will be coordinated by the Banco de Moçambique. During the celebrations, the central bank will be posting financial education and investor protection content on its website and social media accounts.
